

SAMPLE RESPONSES FROM STUDENT EXIT TICKETS ON WRITING PANTOUMS

NOTE: This lesson was used with 8th grade students

One thing I liked about this lesson:

- It was very fun
- How you involved us and let us all take part in the activity
- It was different, something I never done before
- That we got to do something fun and it showed me a different way of poetry
- We all spoke out and shared our ideas
- I loved everything it was full of fun learning!

One thing I learned today is:

- The Pantoum format is fun!
- Learning is fun
- More of the outside world and the olden days
- That poetry is fun in a weird, silly and confusing kind of way!

I'd like to learn more about:

- Malaysia and the Renaissance
- What the name means and who made it-was it just one person?
- Did the Renaissance period affect the whole world or just in Europe?
- Making these poems more advanced
