Mughal Arts
Make a Template for an Arched Doorway or Window Using a Compass and Ruler

**Step 1** – fold a 6” x 7” piece of manila paper lengthwise.

**Step 2** – On the fold side, measure 3 ½ inches from the bottom edge and place a point.

**Step 3** – Set compass for 1 ½ inch radius. Draw an arc from the point up to the fold. (draw a quarter circle or more)

**Step 4** – Use the compass to place a point between the arc and the bottom edge of the paper.

**Step 5** – Line up ruler from the point to the arc and draw a line for the side of the door.

**Step 6** – Cut arch on the fold. For a pointed arch, draw a curved line at the top of the template on the left. Fold and cut.
